Why most Google Ads strategies fail *to attract qualified investors.*

01 Reaching the wrong people

Ads showed to browsers and renters instead of people ready to buy.

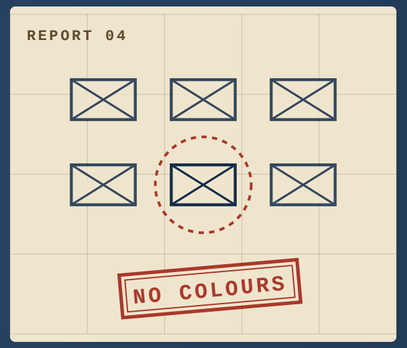

02 No tracking in place

With no conversion data, nobody could tell which clicks turned into leads.

03 Changed too often

Constant edits reset Google's learning before the results could land.

04 Weak ads with no offer

Nothing in the ad gave a buyer a reason to pick you over a competitor.

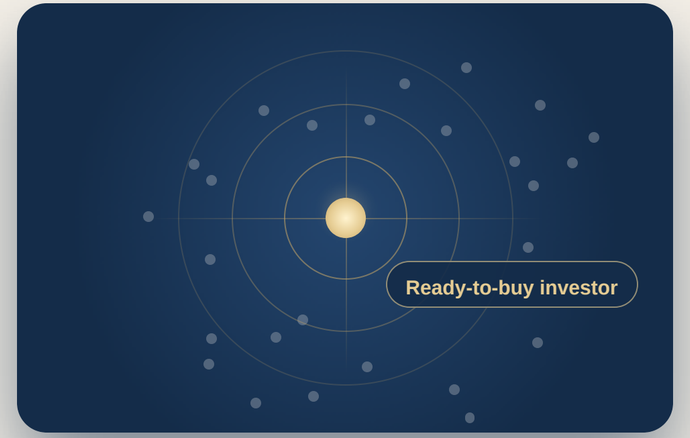

05 Left to run on its own

No weekly routine to cut what wastes money and scale what works.

THE PLAN

3 components. *One strategy.*

Built so none of the five mistakes can happen.

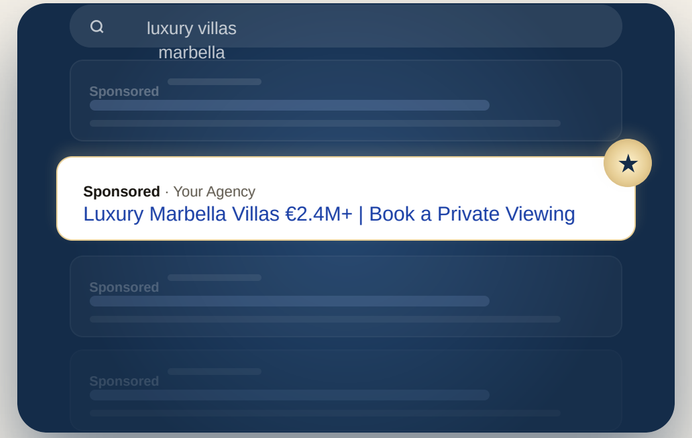

1

The intent

Only show up for investors ready to buy.

AVOIDS ✕ ~~01 Wrong people~~

KPI Cost per lead

2

Stand out

An ad that stands out on a crowded page.

AVOIDS ✕ ~~04 No offer~~

KPI Click-through rate

3

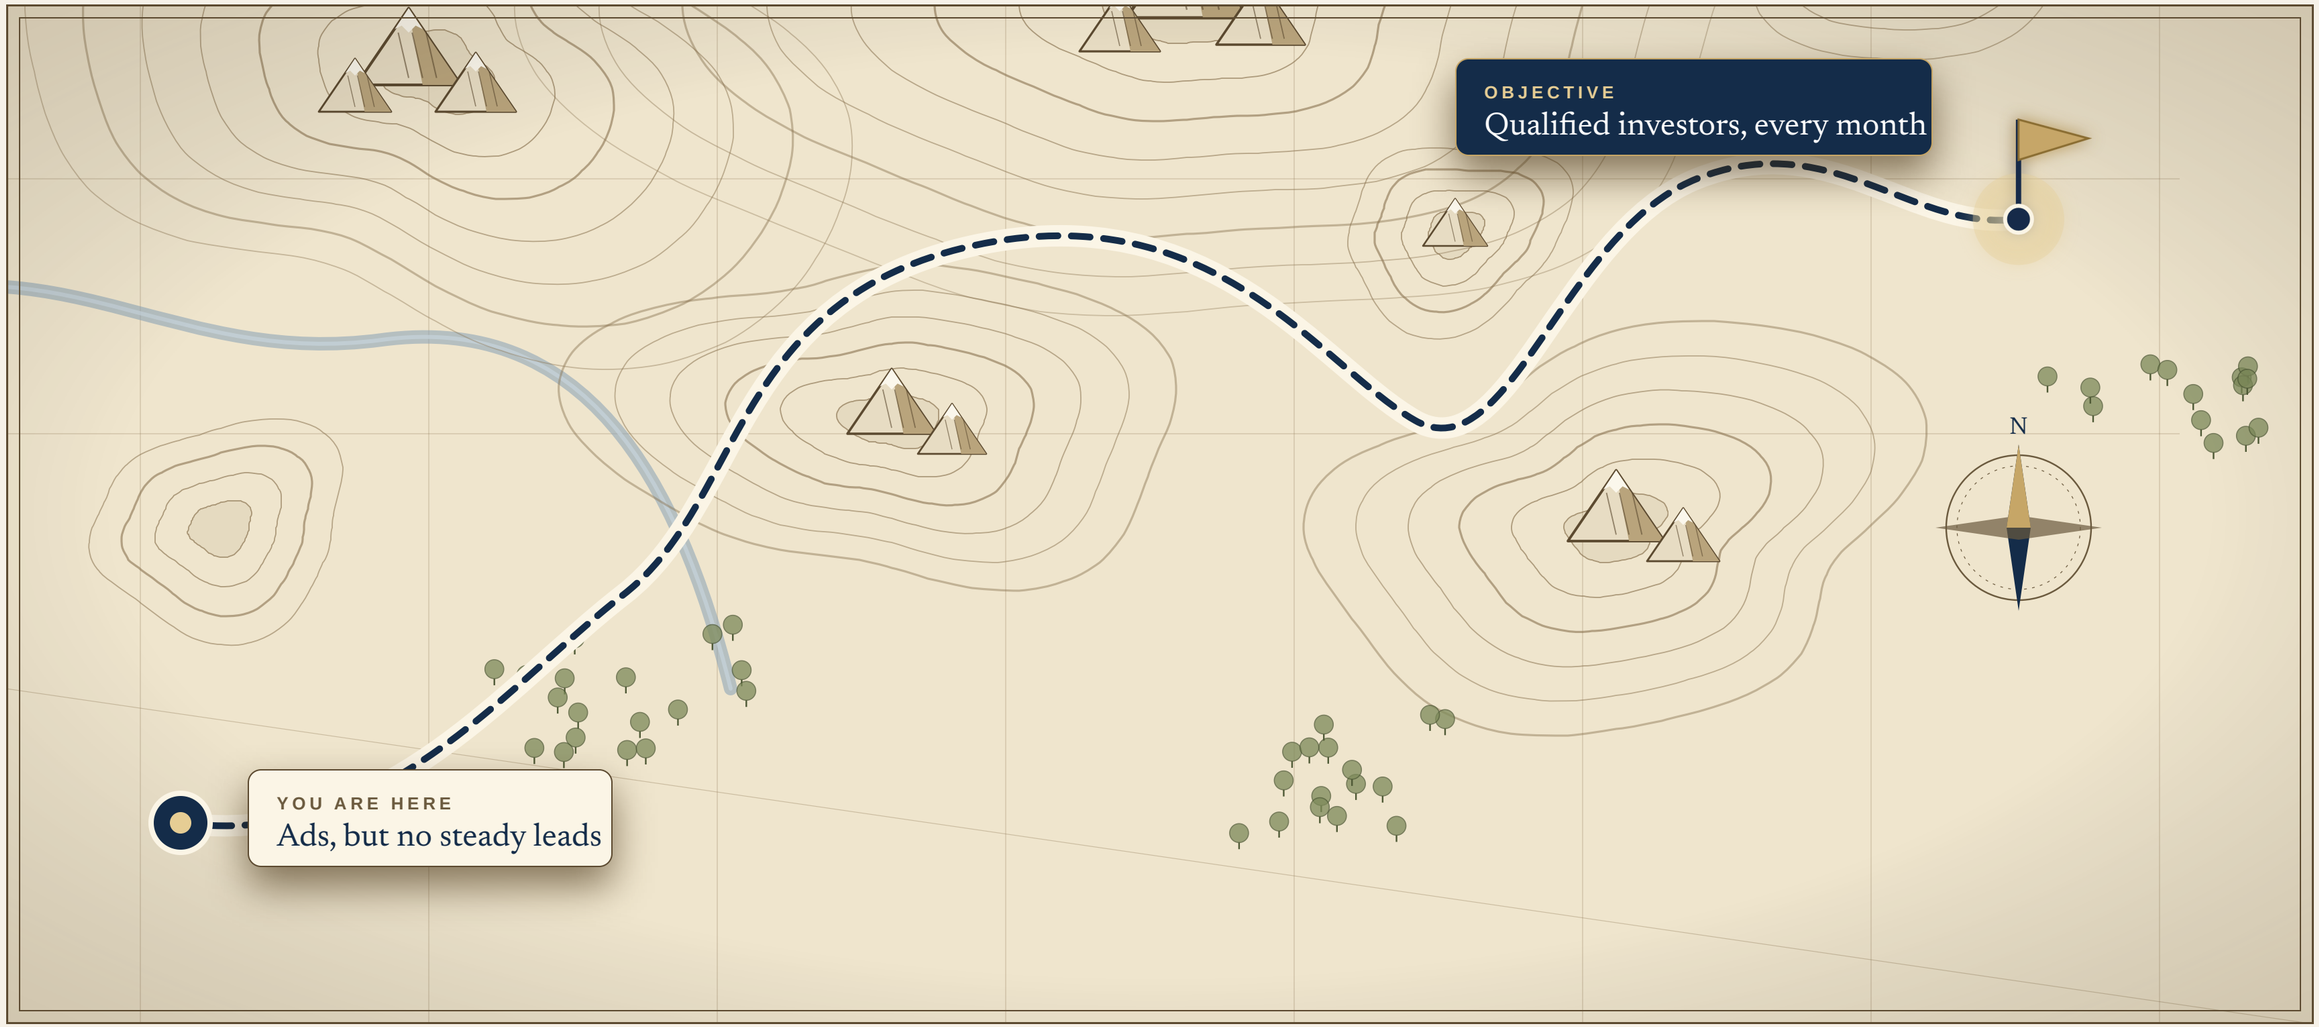

The system

Tracking, controlled bidding and a weekly routine until Google optimises for you.

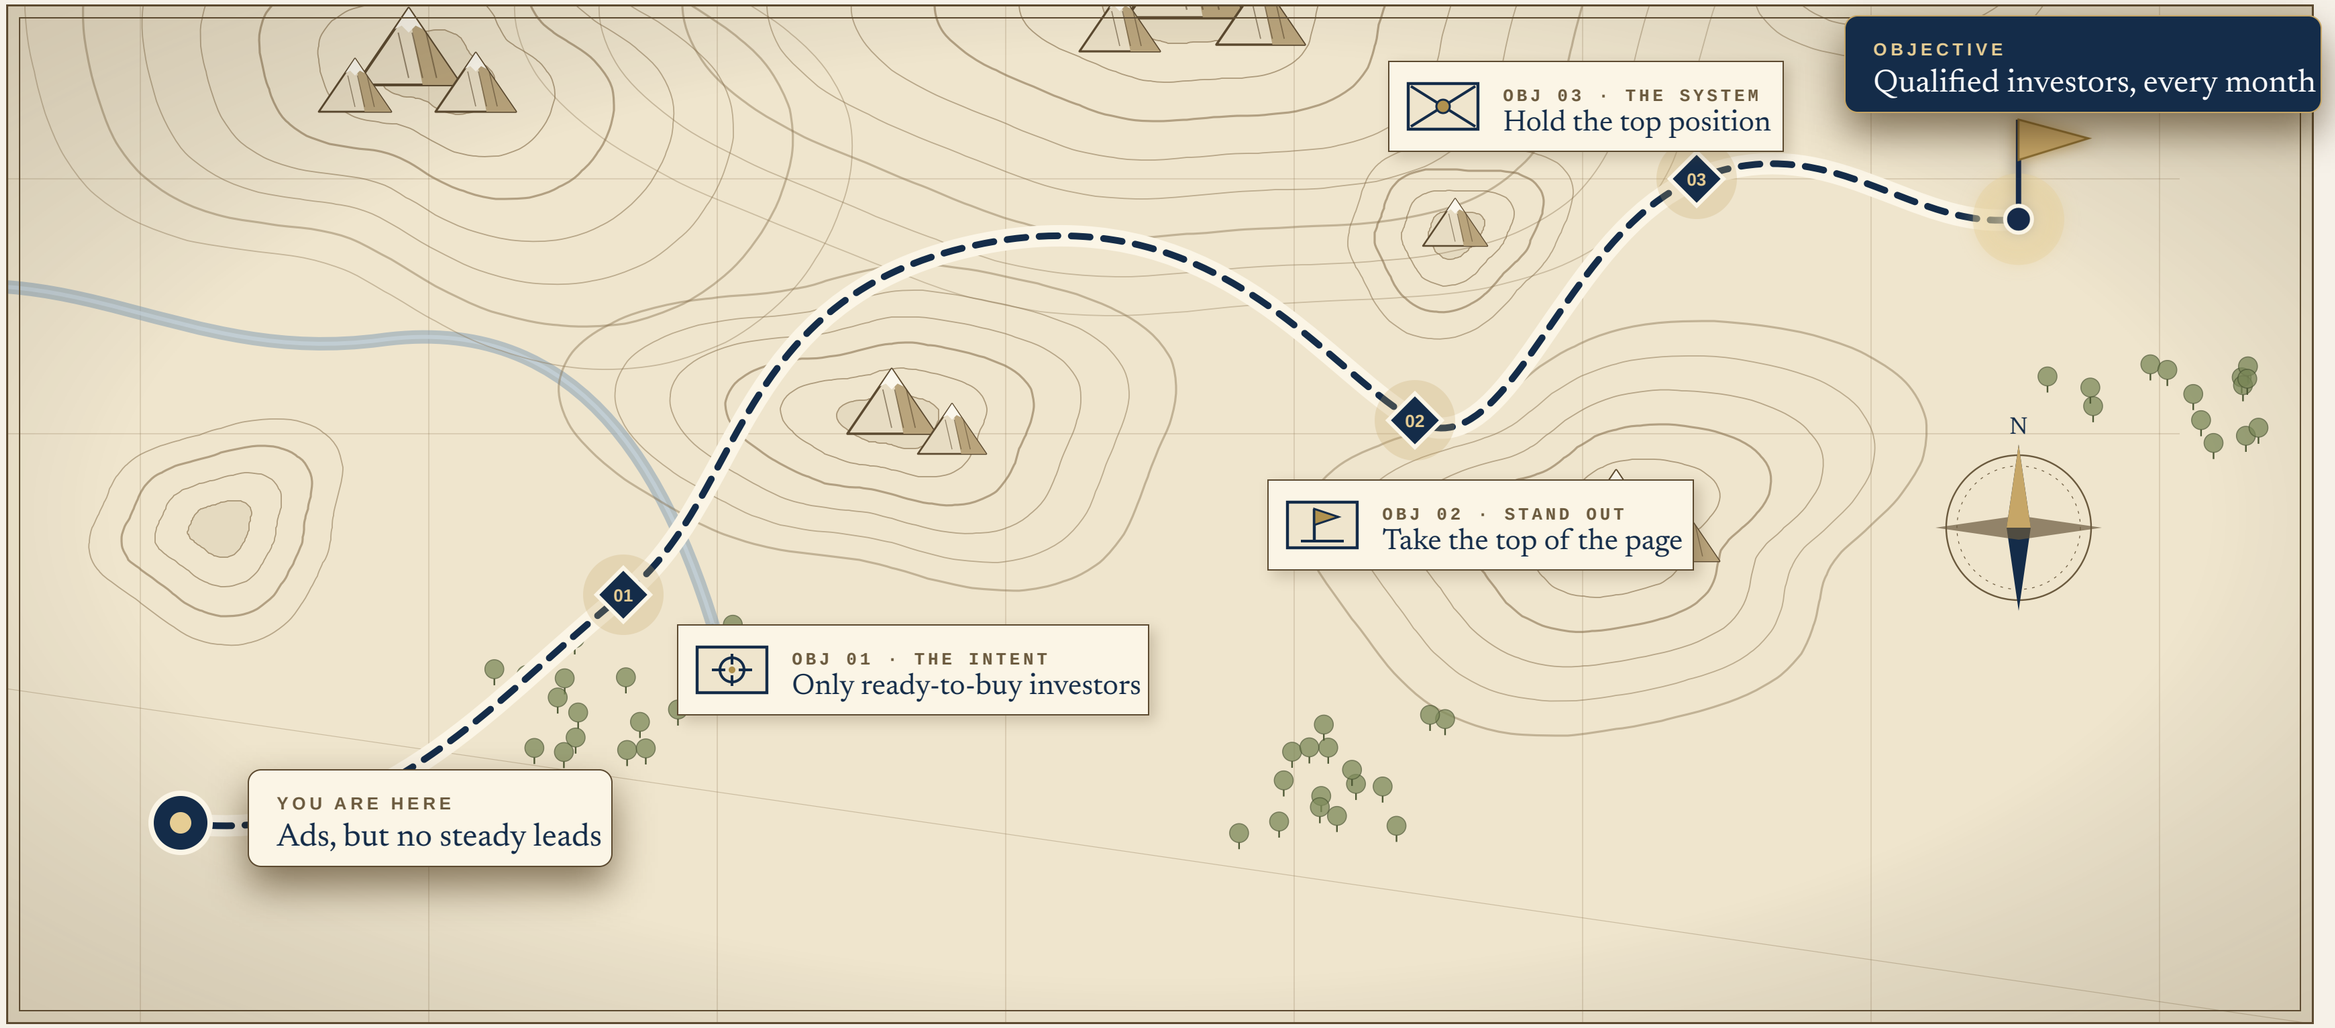

AVOIDS ✕ ~~02 No tracking~~ ✕ ~~03 Changed too often~~ ✕ ~~05 Left alone~~

KPI 30 conversions a month

From where you are *to where you want to be.*

From where you are *to where you want to be.*

OBJ 01 COMPONENT 01 OF 03

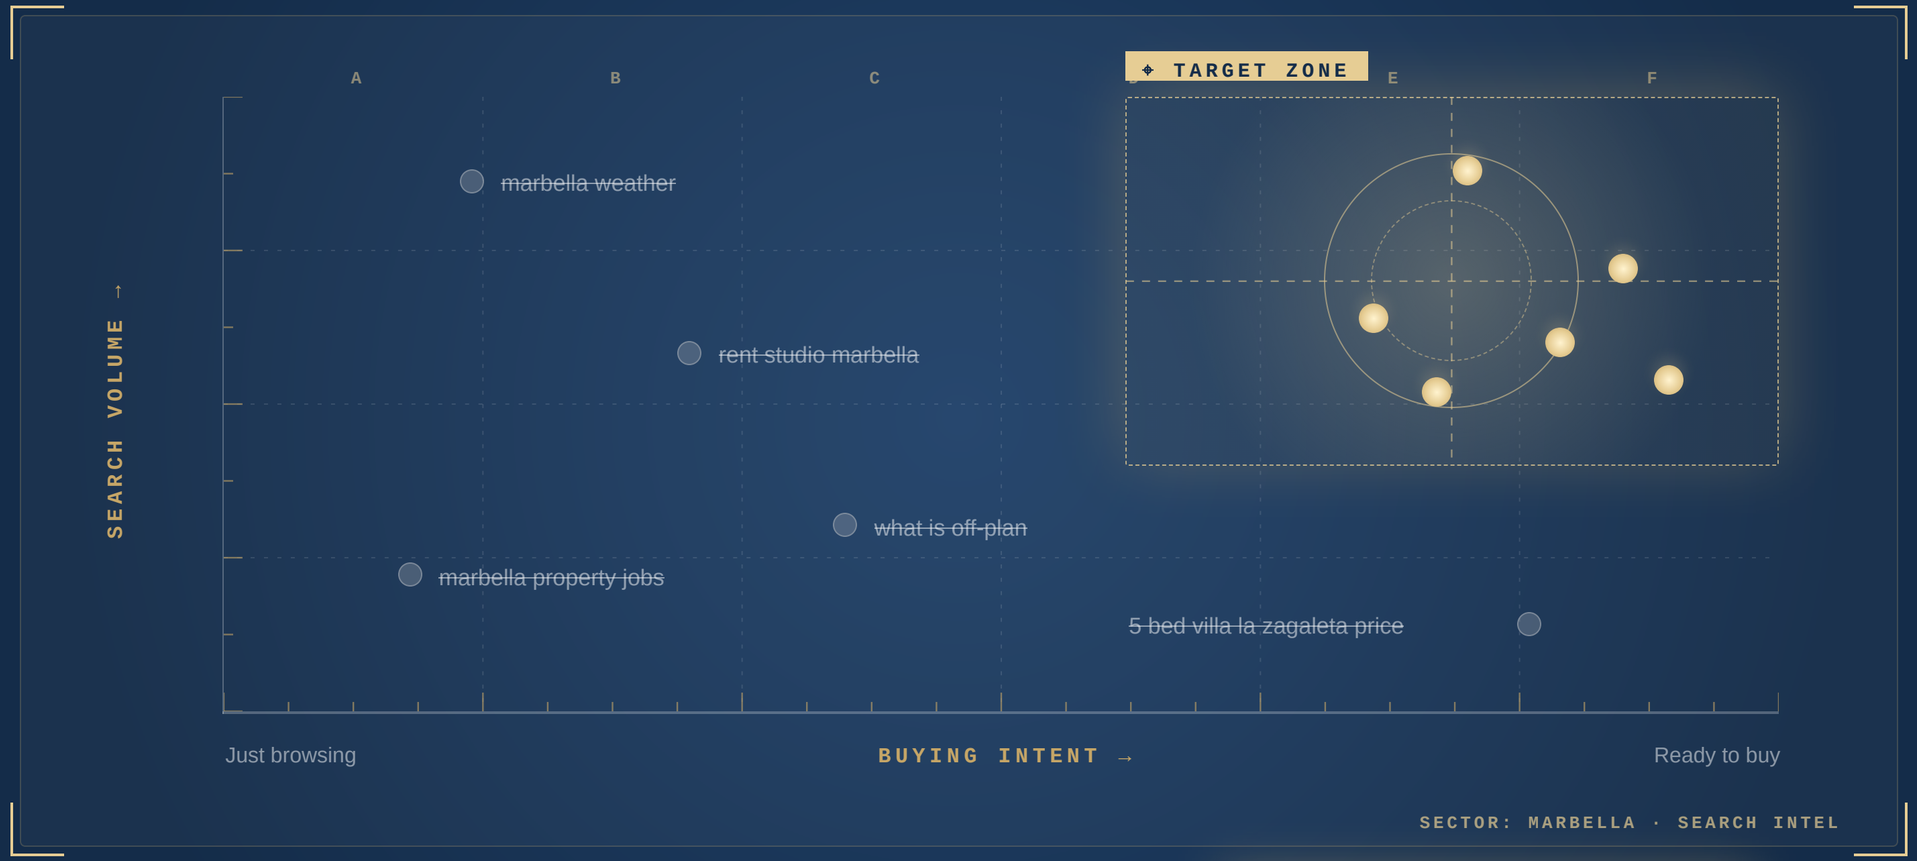

The intent

Only show up for investors ready to buy.

OBJ 01 THE KEYWORDS

More qualified investors, *at a lower cost per lead.*

High search volume
Enough buyers searching every month

+

Clear buying intent
Ready to buy, not just browsing

=

Higher-quality searchers find you
Better leads at a lower cost per lead

Show every investor *exactly what they searched for.*

OBJ 01 WHY WE BUILD IT THIS WAY

More investor enquiries *for less money.*

01 ONE CAMPAIGN

Cheaper leads, sooner

All your budget feeds one campaign, so Google learns faster and your cost per lead drops weeks earlier.

02 AD GROUPS BY THEME

More people click your ad

The ad repeats the exact words the buyer typed, so it looks like the answer and wins the click over competitors.

03 ONE PAGE PER THEME

More visitors enquire

They land on exactly what the ad promised. No hunting, no bouncing back to Google, so more of them enquire.

OBJ 02 COMPONENT 02 OF 03

Stand out

An ad that stands out on a crowded page.

OBJ 02 STAND OUT

Same budget. *The ad investors click.*

INTEL · WHY OURS GETS THE CLICK

01 **The price is in the headline**
[Price]+ tells browsers to scroll past.

02 **An offer nobody else has**
[Your Offer] gives investors a reason to click.

03 **The property is in the ad**
An image extension shows the villa before they click.

OBJ 03 COMPONENT 03 OF 03

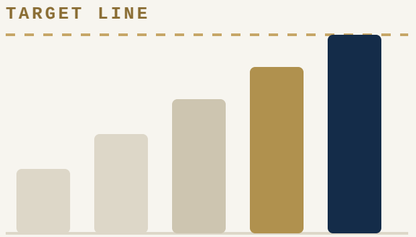

The system

Tracking, controlled bidding and a weekly routine until Google optimises for you.

OBJ 03 THE TARGET

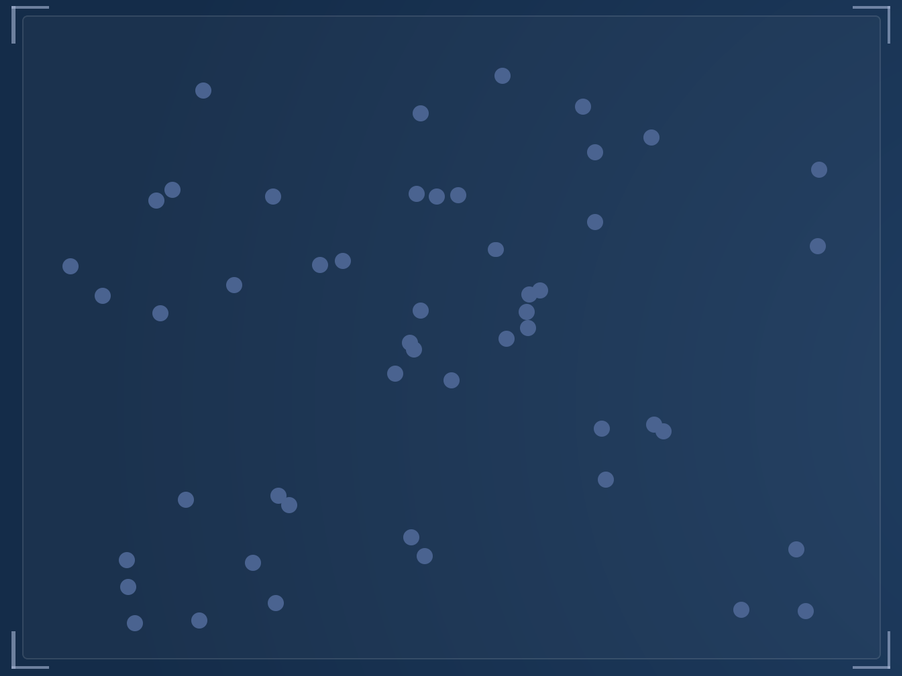

30

Thirty conversions a month is the point where Google has enough data to lower your cost per lead on its own.

Below it, we keep bidding manual so your budget stays under our control.

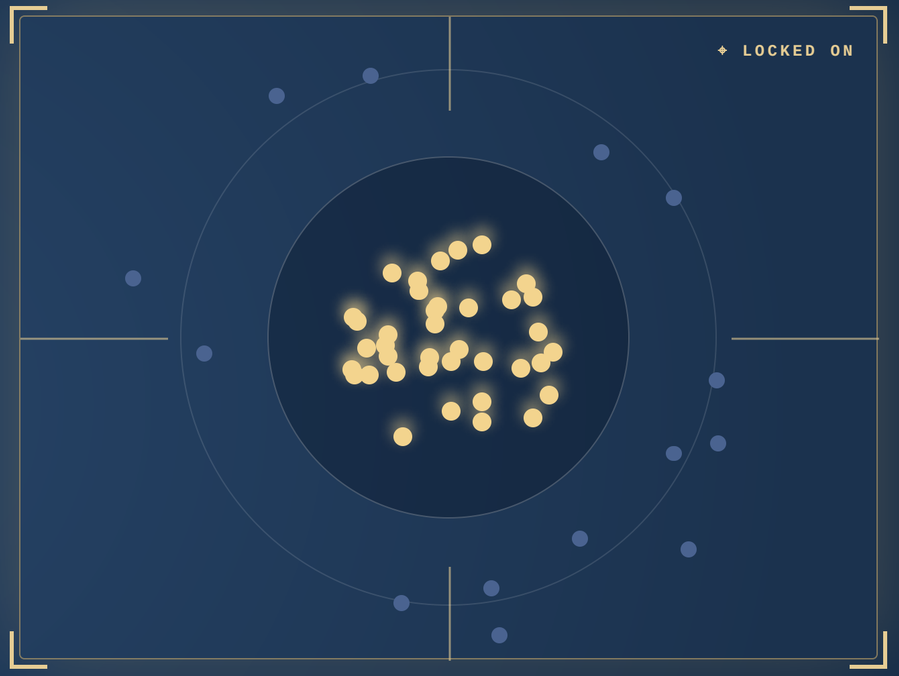

After 30, Google aims *at the right buyers.*

BEFORE 30

Every searcher looks the same

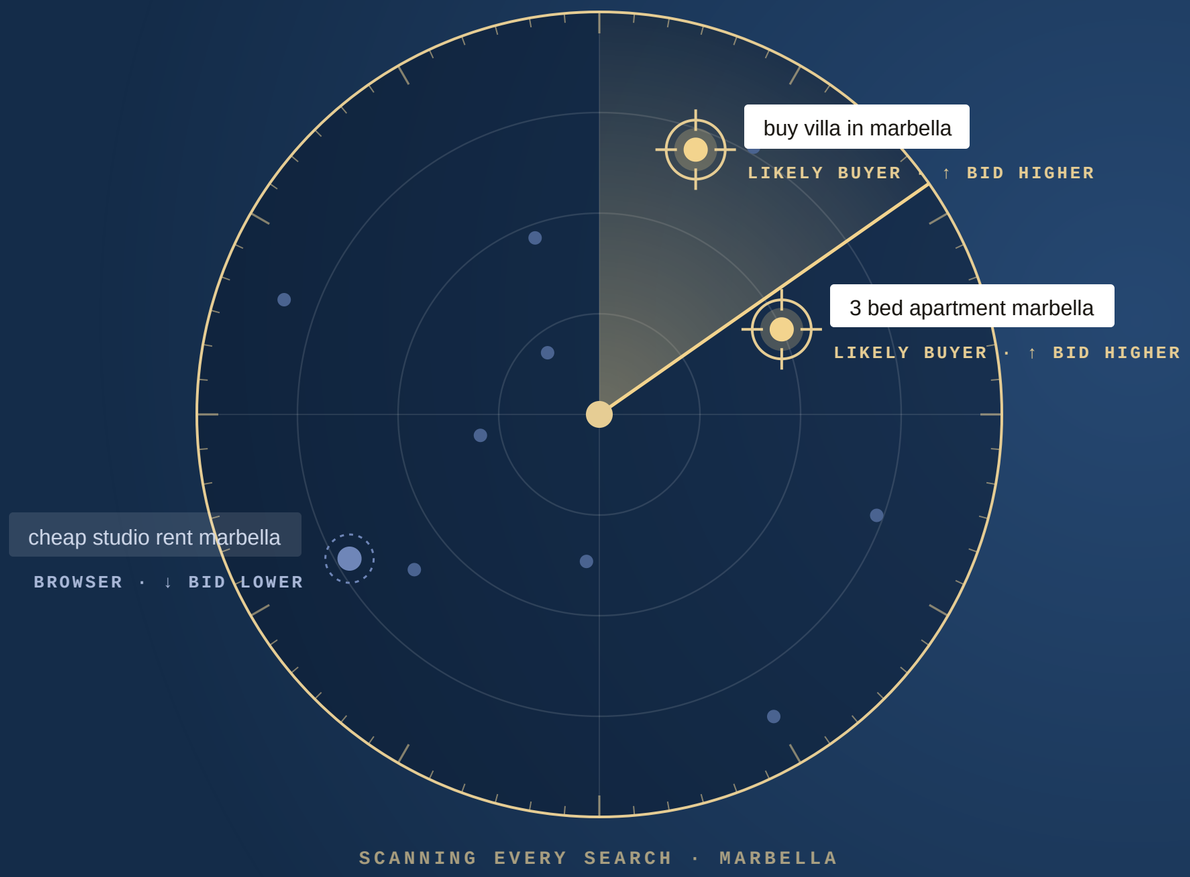

30 leads

AFTER 30

Google zeroes in on your buyer

At 30, Google picks the targets. *Your cost per lead drops.*

BIDDING MODE · AT 30 CONVERSIONS

Manual off.
Smart on.

- Looks like your past buyers: **bid higher**
- Unlikely to enquire: **bid lower**

Less spent on browsers means *every lead costs less.*

Hold *the fort.*

MISSION

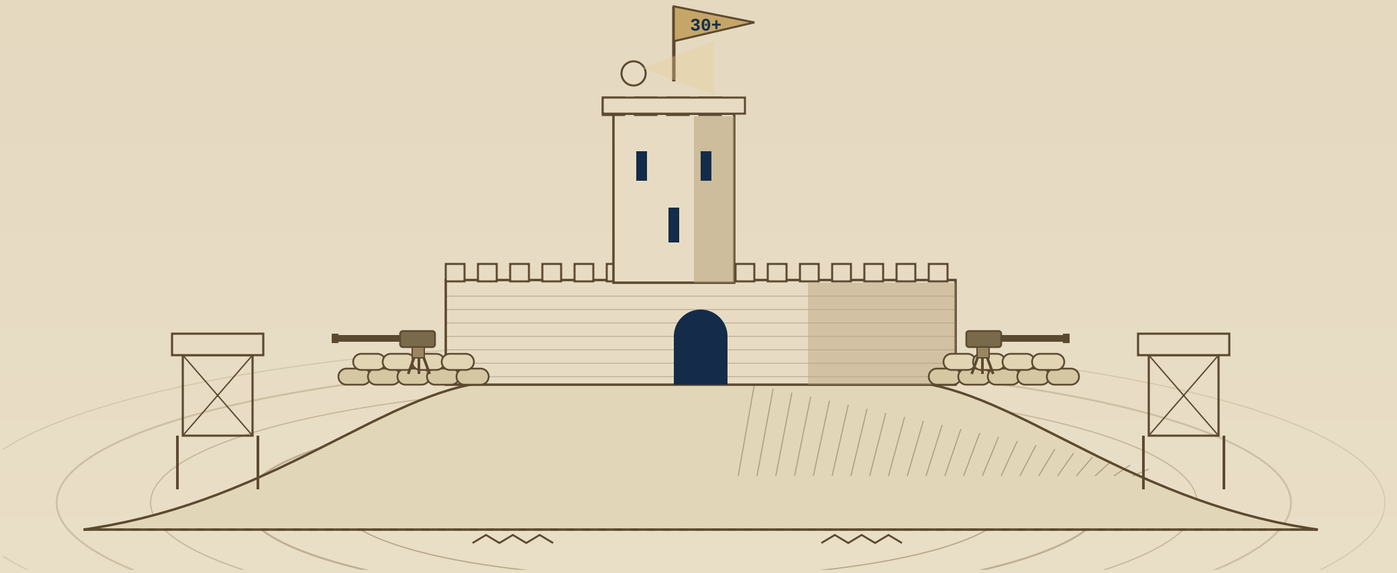

Hold 30+ conversions a month at a lower cost.

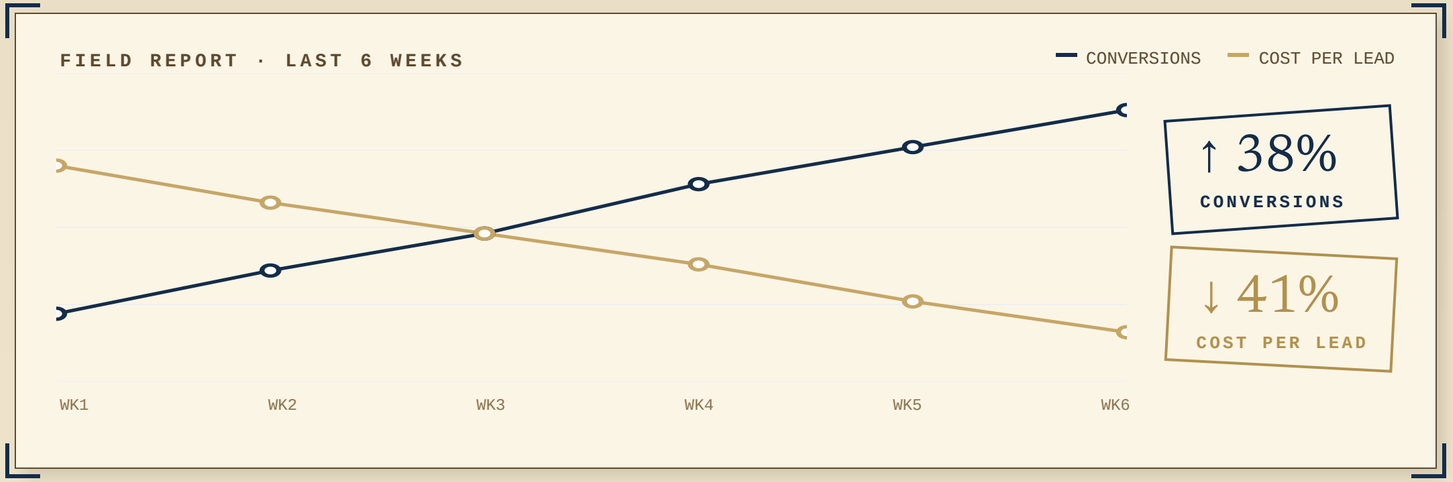

ORDERS

Switch to smart bidding, test ad copy, put more budget behind the winners.

WHY IT HOLDS

With 30+ conversions of clean data, Google lowers your cost per lead and scales.

How one month of leads is calculated
