A QUESTION FOR YOU

Which of these results would you most like to see in your business?

BEFORE WE BUILD YOUR PROPOSAL

A few questions *before we go*

01 Anything in there that sounds too good to be true?

02 Where do you want the business to be three to four months from now?

03 If we solve that, what does your company look like four months from now?

04 From what you've told me, I think this could make sense. Before we go further, is this something you really want?

At Sarac Ramsay we have capacity for one new client in the next 14 days. These questions help us confirm whether that should be you.
