How expats *find a broker.*

01 They search on Google

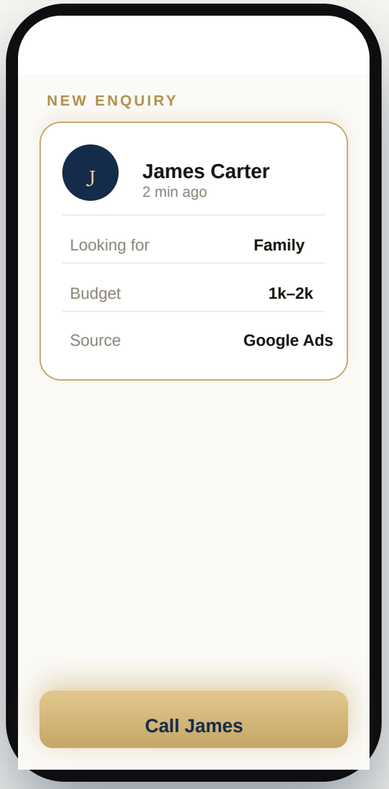

Your ad shows above every other result.

02 They land on your page

Matched to exactly what they typed.

03 They enquire

You get their details straight away.

Source: Google Keyword Planner, London, Oct 2025 to Sep 2026. Estimate based on the midpoint of each keyword's volume range.

Why most Google Ads strategies fail *to attract qualified expats.*

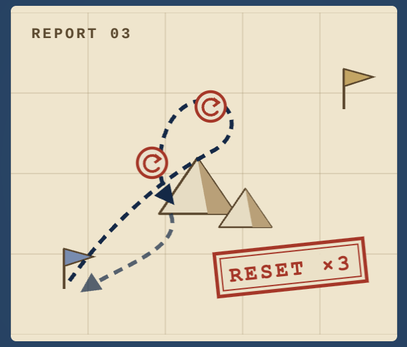

01 Reaching the wrong people

Ads showed to price-checkers instead of expats ready to buy cover.

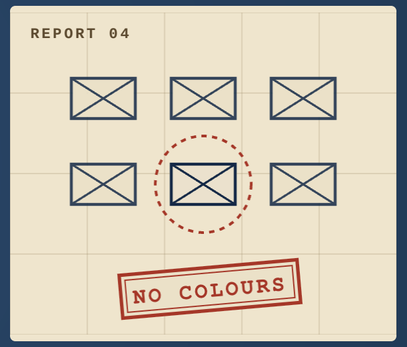

02 No tracking in place

With no conversion data, nobody could tell which clicks turned into leads.

03 Changed too often

Constant edits reset Google's learning before the results could land.

04 Weak ads with no offer

Nothing in the ad gave a buyer a reason to pick you over a competitor.

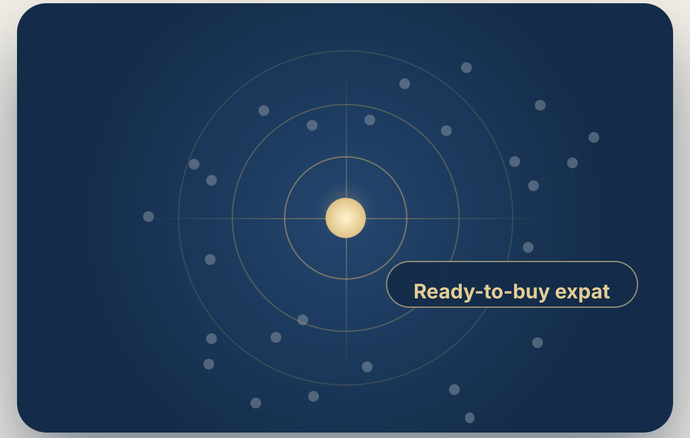

05 Left to run on its own

No weekly routine to cut what wastes money and scale what works.

THE PLAN

3 components. *One strategy.*

Built so none of the five mistakes can happen.

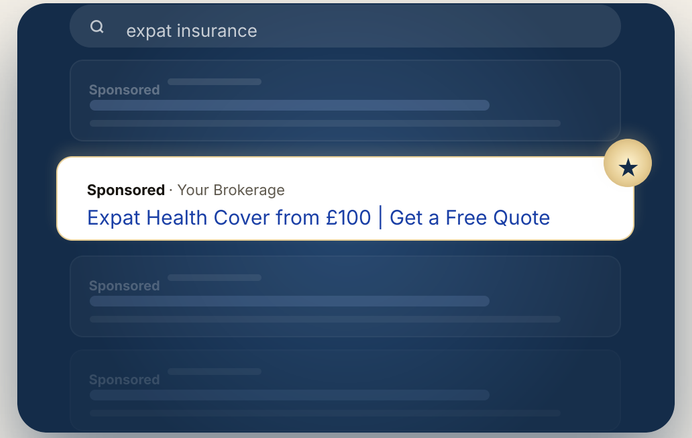

1

The intent

Only show up for expats ready to buy.

AVOIDS ~~01 Wrong people~~

KPI **Cost per lead**

2

Stand out

An ad that stands out on a crowded page.

AVOIDS ~~04 No offer~~

KPI **Click-through rate**

3

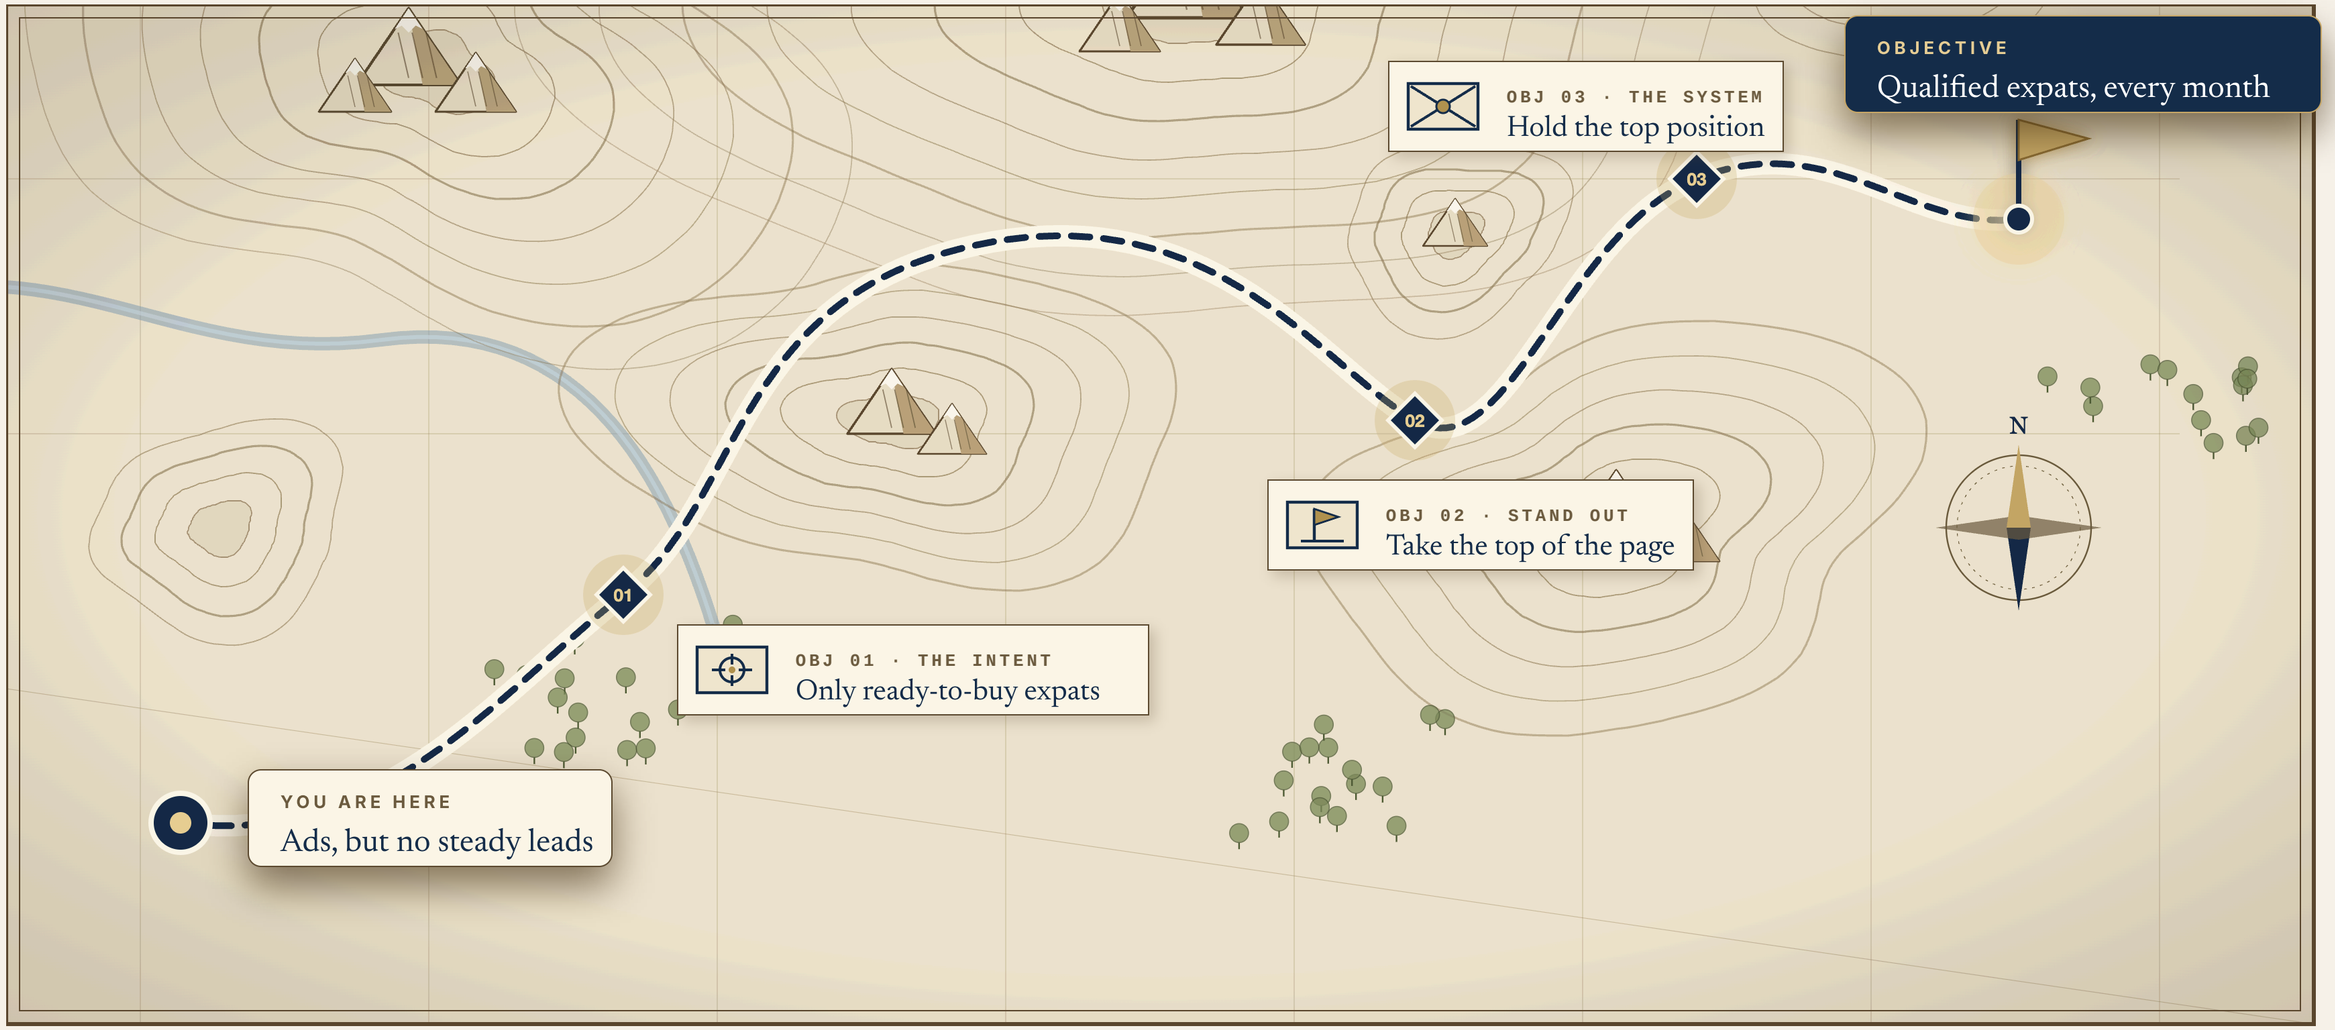

The system

Tracking, controlled bidding and a weekly routine until Google optimises for you.

AVOIDS ~~02 No tracking~~ ~~03 Changed too often~~ ~~05 Left alone~~

KPI **30 conversions a month**

From where you are *to where you want to be.*

OBJ 01 COMPONENT 01 OF 03

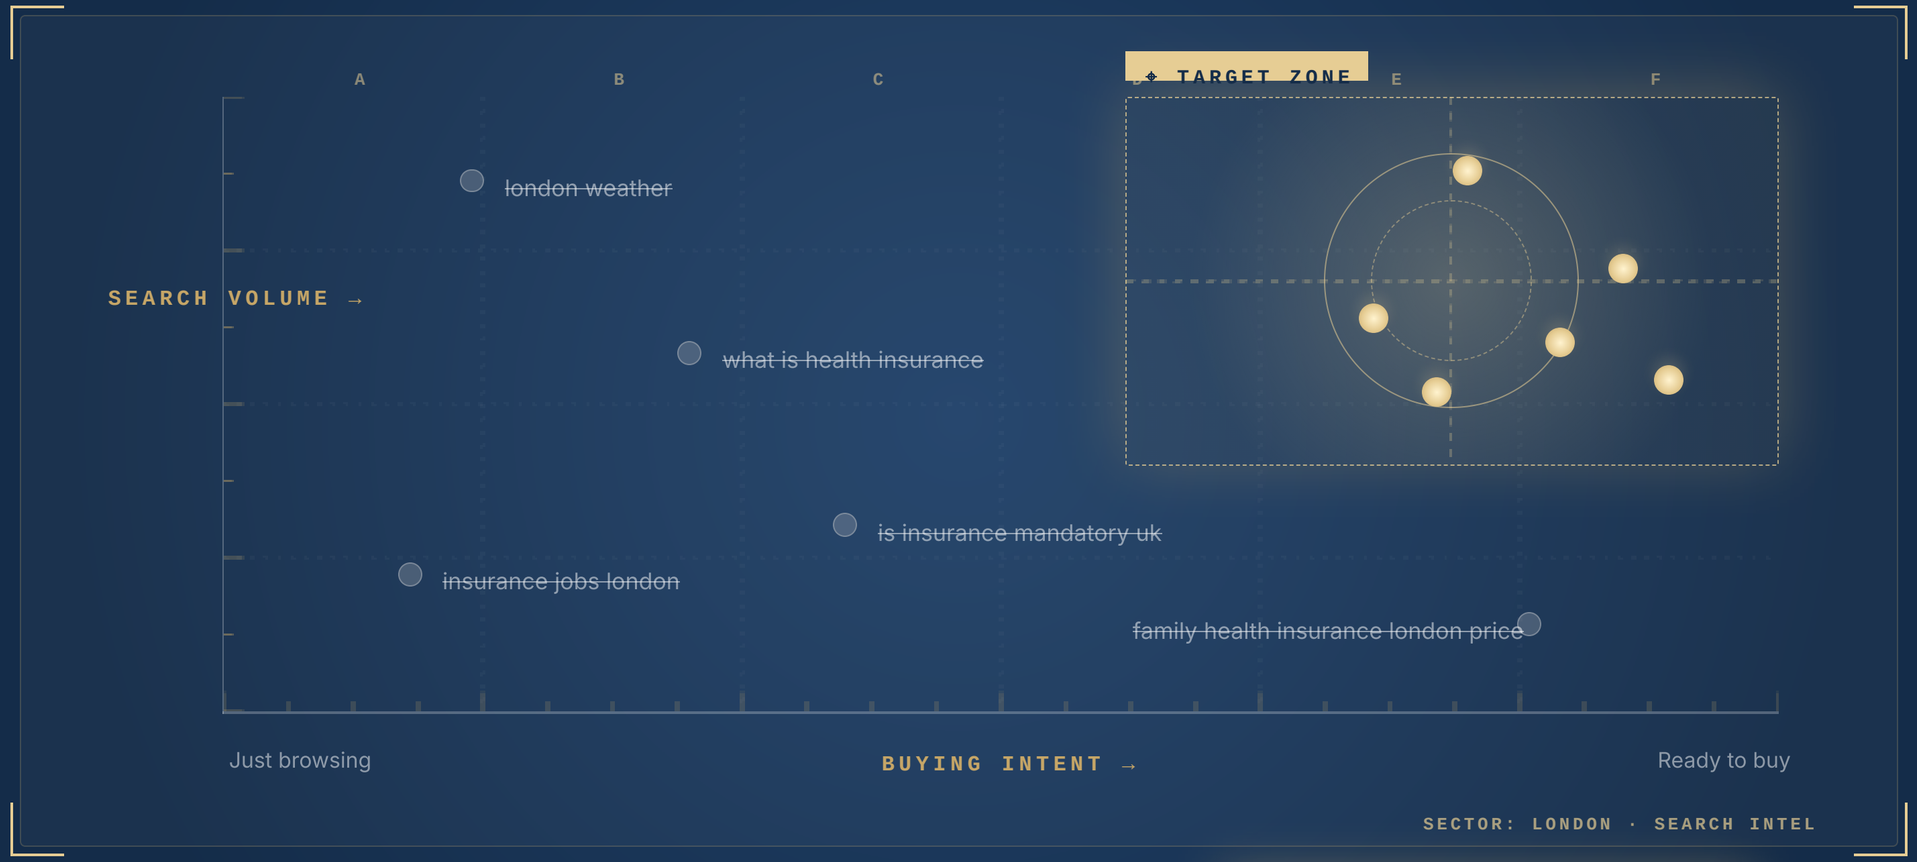

The intent

Only show up for expats ready to buy.

OBJ 01 THE KEYWORDS

More qualified expats, *at a lower cost per lead.*

High search volume
Enough expats searching every month

+

Clear buying intent
Ready to buy, not just browsing

=

Higher-quality searchers find you
Better leads at a lower cost per lead

OBJ 01 THE CAMPAIGN STRUCTURE

Show every expat *exactly what they searched for.*

CAMP 01 · AD GROUP

Health insurance

- health insurance london
- health cover quote london

OWN AD · OWN PAGE

CAMP 02 · AD GROUP

Family cover

- family insurance london
- family medical london

OWN AD · OWN PAGE

CAMP 03 · AD GROUP

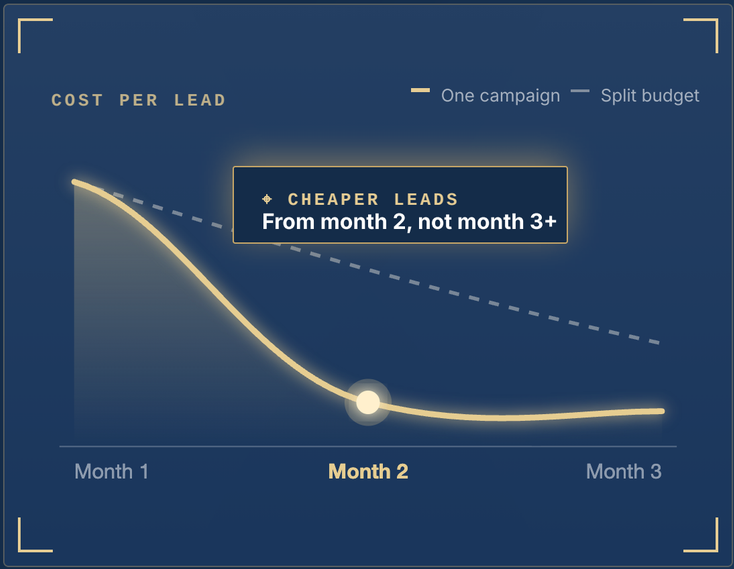

Life insurance

- life insurance london
- life cover london

OWN AD · OWN PAGE

OBJ 01 WHY WE BUILD IT THIS WAY

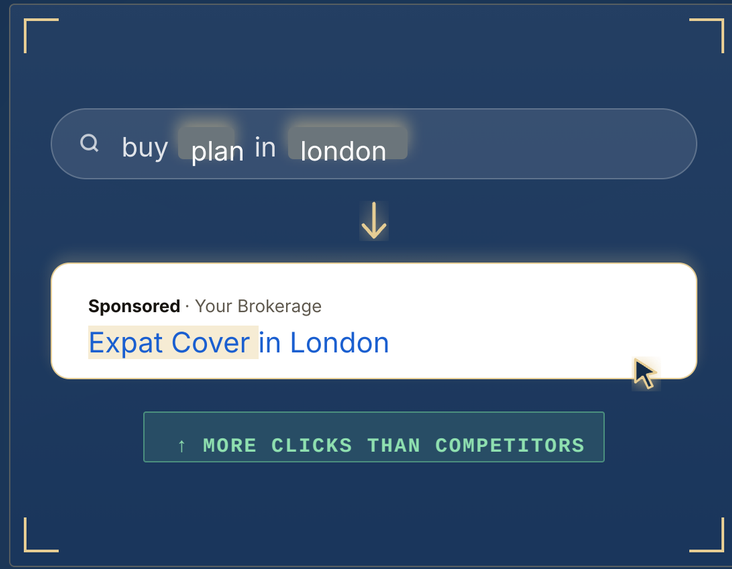

More expat enquiries *for less money.*

01 ONE CAMPAIGN

Cheaper leads, sooner

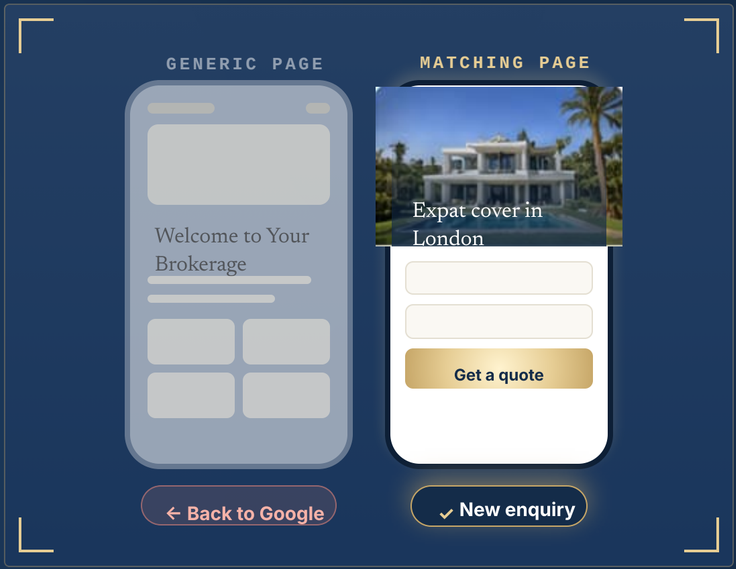

All your budget feeds one campaign, so Google learns faster and your cost per lead drops weeks earlier.

02 AD GROUPS BY THEME

More people click your ad

The ad repeats the exact words the buyer typed, so it looks like the answer and wins the click over competitors.

03 ONE PAGE PER THEME

More visitors enquire

They land on exactly what the ad promised. No hunting, no bouncing back to Google, so more of them enquire.

OBJ 02 COMPONENT 02 OF 03

Stand out

An ad that stands out on a crowded page.

OBJ 02 STAND OUT

Same budget. *The ad expats click.*

INTEL · WHY OURS GETS THE CLICK

01 **The price is in the headline**
[Price]+ tells browsers to scroll past.

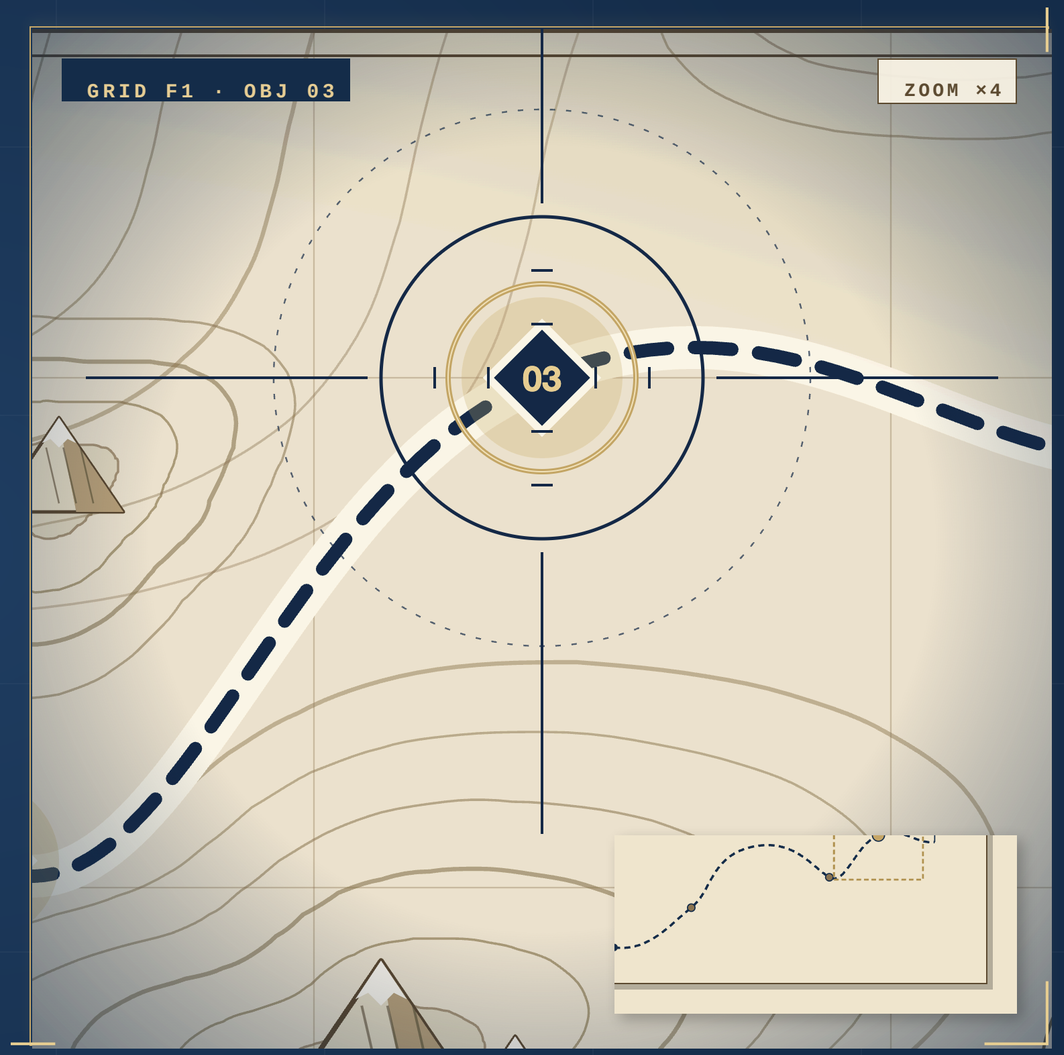

02 **An offer nobody else has**
[Your Offer] gives expats a reason to click.

03 **The plan is in the ad**
An image extension shows the plan before they click.

OBJ 03 COMPONENT 03 OF 03

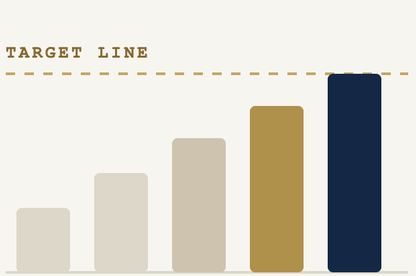

The system

Tracking, controlled bidding and a weekly routine until Google optimises for you.

OBJ 03 THE TARGET

30

Thirty conversions a month is the point where Google has enough data to lower your cost per lead on its own.

Below it, we keep bidding manual so your budget stays under our control.

After 30, Google aims *at the right buyers.*

BEFORE 30

Every searcher looks the same

AFTER 30

Google zeroes in on your buyer

At 30, Google picks the targets. *Your cost per lead drops.*

BIDDING MODE · AT 30 CONVERSIONS

Manual off.
Smart on.

- Looks like your past buyers: **bid higher**
- Unlikely to enquire: **bid lower**

Less spent on browsers means *every lead costs less.*

Hold *the fort.*

MISSION

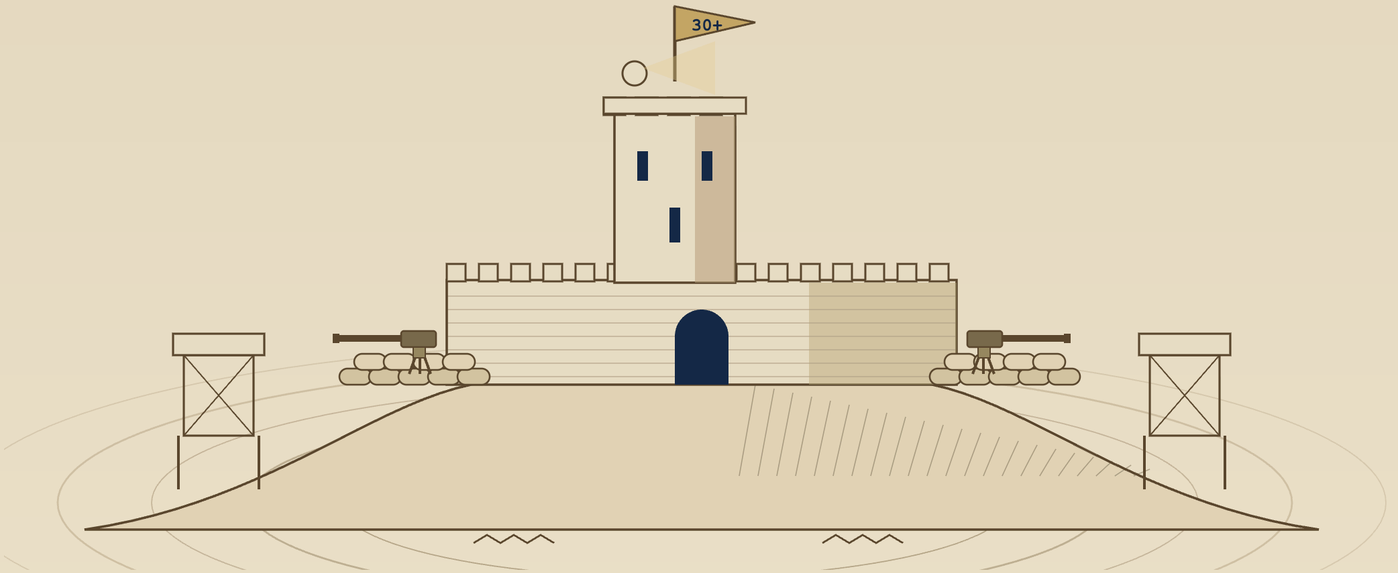

Hold 30+ conversions a month at a lower cost.

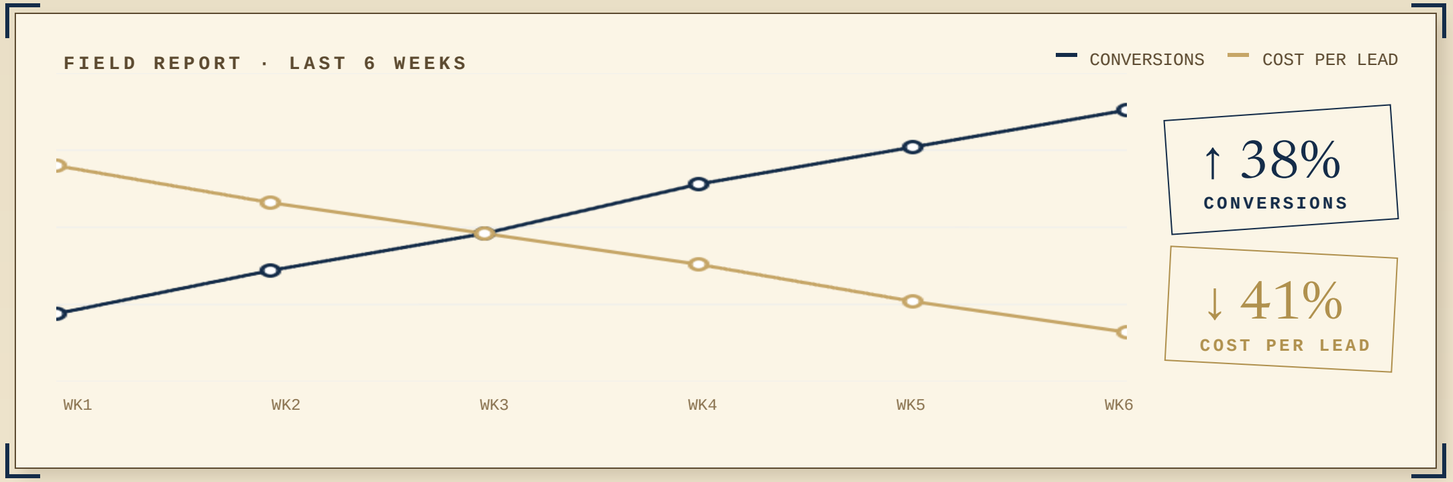

ORDERS

Switch to smart bidding, test ad copy, put more budget behind the winners.

WHY IT HOLDS

With 30+ conversions of clean data, Google lowers your cost per lead and scales.

How one month of leads is calculated

30	÷	2.5%	=	1,200	×	£ 2.61	=	£ 3,132
LEADS TARGET		CONV. RATE		CLICKS		CPC		AD BUDGET

1,200 clicks at a 5% CTR need about 24,000 impressions

	Month one		*Month two*		*Month three*		*90 days*
	IDEAL	REALISTIC	IDEAL	REALISTIC	IDEAL	REALISTIC	TOTAL
Leads target	30	~15	30	~24	30	~30	~69
Conv. rate	2.5%	1.25%	2.5%	2.0%	2.5%	2.5%	–
CPC	£2.61	£2.61	£2.61	£2.61	£2.61	£2.61	£2.61
Ad budget	£3,132	£3,132	£3,132	£3,132	£3,132	£3,132	£9,396
